PROFESSIONAL SUMMARY

Computer Science student at COMSATS University Islamabad with hands-on experience in full-stack web development using Node.js, Express.js, MongoDB, Django, and React. Developed multiple web applications including travel booking and e-commerce platforms. Strong foundation in software development, database management, REST APIs, authentication systems, and problem-solving. Eager to apply technical knowledge and contribute effectively in a professional internship environment.

EDUCATION

COMSATS UNIVERSITY ISLAMABAD

Expected Feb 2027

Bachelor of Science in Computer Science

Current: 7th Semester
GPA: 3.48/4.0

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, HTML5, CSS3, SQL

Frontend: React, HTML, CSS, Responsive Design

Backend: Node.js, Express, Django, RESTful APIs

Databases: MongoDB, MySQL, PostgreSQL

Tools: Git, GitHub, Docker, Postman, Visual Studio Code

TECHNICAL PROJECTS

E-COMMERCE MARKETPLACE (DJANGO)

Aug 2025

Developed a full-stack e-commerce platform using Django.
Implemented authentication and role-based access for customers and sellers.
Built shopping cart, wishlist, product search, and checkout functionalities.
Designed and managed relational database models for products, users, and orders.
Developed administrative features for product and order management.

TRAVEL BOOKING WEB APP (MERN STACK)

Oct 2023

Developed a full-stack travel booking platform with customer and seller modules. Built RESTful APIs using Express.js and managed application data using MongoDB. Implemented authentication and authorization mechanisms for secure user access. Designed backend logic for bookings, user management, and platform operations.

GAMES COLLECTION WEBSITE (HTML, CSS, JAVASCRIPT)

Aug 2025

Developed a browser-based gaming platform featuring five interactive games.
Implemented game logic, event handling, and DOM manipulation using JavaScript.
Designed responsive user interfaces to ensure usability across devices.
Applied problem-solving techniques to create engaging gameplay experiences.

TO-DO APPLICATION (REACT)

March 2026

Built a task management application using React.
Implemented add, edit, delete, and update functionality using React state management.
Practiced component-based development and dynamic user interface rendering.

CERTIFICATIONS & ACHIEVEMENTS

Self-taught Full-Stack Web Development (MERN Stack: MongoDB, Express, React, Node.js)
Built full-stack and frontend projects including travel booking system, e-commerce platform, and React applications
Active hands-on experience in backend API development, authentication systems, and database design using MongoDB
